DECLARATION OF ROBERT J. SCHAAP IN SUPPORT OF
PETITION TO REVIVE AN ABANDONED PATENT APPLICATION

Honorable Commissioner of
Patents and Trademarks
Washington, D.C. 20231

Dear Sir:

COMES NOW, ROBERT J. SCHAAP, and states and declares as
follows:

That I have personally made an examination of the file of this
application, and I have examined other files in this office
relating to W. Brandt Goldsworthy and Associates. We have found no
document dated February 4, 2002, for any such application and,
particularly, for this present application.

Upon being advised by Ms. Cancino that she had called the

Patent Office on a few occasions, and discovered the application had become abandoned, I immediately took those steps to revive the application.

The Notice of missing parts of non-provisional patent application only called for the submission of a copy of the oath attached to the original or parent patent application, since the continuation application was filed under 37 C.F.R. 1.53. That is a relatively simple matter and can be easily and readily handled. Consequently, we would not have let this application become abandoned for failure to address the filing of missing parts of patent application.

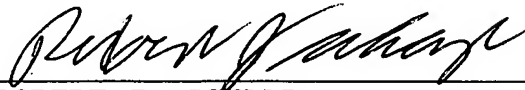

I am also aware that the applicant in this case had instructed the office of the undersigned attorney to take action to abandon two other patent applications in the not to distant past. However, the applicant did express his interest and desire to maintain this present application and expressed the importance of this application. Consequently, we would not have permitted this application to intentionally have become abandoned.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the Unites States Code, and that such

willful false statements may jeopardize the validity of the application, any patent issuing thereon, or any patent to which this declaration is directed.

Dated: June 17, 2003

Respectfully submitted,
